INTERIOR DESIGNER

The Interior Designer at Patrick Thompson Design is a valued project team member who will assist in the development and execution of design solutions for projects along with the Senior Interior Designer and Design Director.

Specific Tasks/Responsibilities:

- Independently prepares drawings and documentation for schematic design, design development and construction documents, and FF&E specification phase based on the direction of the Senior Interior Designer, Project Manager, and/or Design Director
- Assists in the preparation of preliminary design concepts and alternatives for review
- Assists in the selection of FF&E materials and product, space planning, and programming for design projects.
- Performs general research and product sourcing for all project types
- Communicates with vendors on lead times and quotes
- Collaborates in design efforts and coordination with consultants throughout the design process
- Consults with clients to select materials, furnishings, and décor
- Researches and maintains current knowledge of new products, product trends, materials, and techniques
- Participates in industry events, forums, and conferences as required

Skills And Qualifications:

- Preferably 3-5 years of project experience in hospitality, residential and multi- use spaces
- Professional degree in Interior Design from an accredited university (or equivalent experience)
- NCIDQ Certification a plus
- Demonstrated ability to work collaboratively with both staff members and clients
- Proficient in AutoCAD, Sketchup, Adobe Creative Suite, Google Workspace, and MSOffice
- Knowledge of and experience with the full design process, from strategic planning and programming through construction
- Shows understanding and ability to work within project budget parameters
- Demonstrated ability to communicate design ideas and direction quickly
- Excellent organizational, business writing, and communication skills
